

THIRD ANNOUNCEMENT AND CALL FOR PAPERS

THE THIRD INTERNATIONAL SYMPOSIUM ON ELECTRICAL AND ELECTRONICS ENGINEERING - ISEEE 2010 -

16-18 September 2010, GALAȚI,
ROMANIA

ORGANIZED BY

- Ministry of Education, Research, Youth and Sports of Romania
- IEEE Romania Section
- "Dunărea de Jos" University of Galați, Romania
- Faculty of Electrical and Electronics Engineering

INVITATION

The Faculty of Electrical Engineering and Electronics invites researchers, professionals, master and PhD students to participate at the ISEEE-2010, **The 3rd INTERNATIONAL SYMPOSIUM ON ELECTRICAL AND ELECTRONICS ENGINEERING**, which will be held at "Dunărea de Jos" University of Galați, Romania.

Galați is located in the eastern part of Romania. It can be easily reached by train or by car from Bucharest, the capital of Romania.

The **symposium** is intended as an international forum where an effective exchange of knowledge and experience among researchers, active in various theoretical and applied areas of electrical and electronics engineering, power electronics and telecommunications, can take place.

The **objective** of the symposium is oriented but not limited to the paradigm of interdependency between electrical and electronic systems.

The **working language** of the symposium is English.

IMPORTANT DEADLINES

February, 28 - Special session and tutorial proposals based on the set of the abstracts of the papers.

March, 15 - Notification of special papers acceptance and further details.

June, 13 - Submission of full papers (of 4 or 6 pages) as pdf and MS Word files, to be presented at Lecture or Dialogue Sessions (Posters).

June, 28 July, 5 - Notification of acceptance/rejection.

July, 18 July, 26 - Camera-ready version of the accepted papers and registration forms.

TOPICS

Contributions are welcome in both theoretical developments and practical implementations in all areas involving electrical and electronics engineering. Topics may include, but are not limited to:

Power Electronics and Electrical Drives
Power Systems
Hybrid Systems
Renewable Energies
Instrumentation and Measurements
Electromagnetic Compatibility
Electrical Circuits and Systems
Electrical Machines and Transformers
Signal Processing Theory and Algorithms
Image, Speech and Audio Signal Processing
Communications
Computational Intelligence
Control Engineering
Autonomous and Intelligent Systems
Embedded Systems
Modeling and Simulation
Pattern Recognition
Information Processing and Engineering
Concurrent and Reverse Engineering
Engineering Education
Software engineering and tools

Lecture & Dialogue Sessions: Lecture and dialog sessions are equal in worth. The dialogue sessions are dedicated especially for an intensive discussion with the experts in the field, allowing face-to-face discussions with the authors.

Tutorials: A number of tutorials will be organized. Proposals for tutorials are encouraged and expected.

Special Sessions: Proposals for the organization of special sessions are encouraged. Student sessions are also considered.

PROCEEDINGS

All accepted papers will be published in the Symposium Proceedings with ISSN. Selected papers will be published in a special section of the Annals of the "Dunarea de Jos" Galati University, and in a special issue of Journal of Electrical Engineering: Theory and Applications (JEETA), HyperSciences_Publisher. All accepted papers are proposed to be included in IEEEExplore
